Potential Residential Investment Tax Credit	(\$49,500)
Total Upfront Cash Price	\$165,000
Connectivity to BE Home App	Fully Included
5-year maintenance and monitoring	Fully Included
Upfront Equipment Cost	\$165,000

## Notes

Actual savings may vary.

Potential savings calculations assume current monthly electricity bill in Northern California with 5% annual inflation plus costs of an outage / security. Cost of an outage / security assumes 24 hours of outage annually at a cost of \$500/hour and includes cost of lost productivity, perishables, alternative accommodations, inconveniences, value of security, home appreciation, etc.

BE Home average monthly cost based on \$99,000 net BE Home price over 5 years plus cost of fuel estimated at approximately \$300 a month for a home with an \$800 electricity bill and approximately \$555 a month for a home with a \$1,600 electricity bill. Actual fuel usage and costs may vary. BE Home pricing excludes taxes and installation.
